

VISIT THE CHAPMAN INNOVATIONS/CARBONX BOOTH AT THE NSC EXPO

Leading manufacturer of FR fabrics delivers the highest level of protection in the industry

WHAT: CarbonX® fabrics and apparel will be on display at the Chapman Innovations booth at the NSC Expo, October 31–November 2, in Philadelphia. (Chapman Innovations develops and markets thermal fabric solutions under the brand CarbonX.)

CarbonX fabrics and apparel are specifically crafted to protect professionals working in extreme conditions where safety matters most. Constructed of a proprietary blend of high-performance fibers, CarbonX products provide ultimate protection against direct flame, extreme heat, molten metal, hot/flammable liquids, and arc flash hazards, significantly outperforming competitors.

CarbonX partners with manufacturers and distributors worldwide to deliver innovative PPE solutions. The CarbonX patented fiber blend is highly customizable, enabling each resulting fabric construction to be tailored for optimized performance and for specific applications and risks.

CarbonX fabrics are used in baselayer garments, gloves, balaclavas/hoods, socks, pants, shirts, outerwear, and other applications.
